## PROFILE

Frontend-focused web developer and Computer Engineering student with experience building production-ready applications for businesses and institutions. I specialize in creating clear, scalable interfaces using React and TypeScript, while also contributing to backend development with Node.js and databases. I enjoy turning ideas into reliable digital products and collaborating with teams to deliver high-quality solutions.

## AREAS OF EXPERTISE

- JavaScript / TypeScript
- HTML5/CSS3
- React
- Responsive Web Design
- Node.js
- RESTful APIs
- SQL / NoSQL
- DNS & Domain configuration

## PROFESSIONAL EXPERIENCE

DEC 2025 – PRESENT

### Front End Developer / UO Solutions, Buenos Aires, Argentina.

- Development and maintenance of web interfaces using TypeScript.
- Implementation of reusable components and solutions with a strong focus on UX.
- Active participation in continuous improvement of both the product and development workflow.

AUG 2025 – NOV 2025

### Full Stack Developer / CIEPA - UBA, Buenos Aires, Argentina

- Developed and maintained a web system for the CIEPA center.  
<https://ciepa.agro.uba.ar/>
- Implemented both frontend and backend features focused on institutional content management and data visualization.
- Integrated business logic, data handling, and system deployment.

## EDUCATION

PRESENT

### Computer Engineering / National University of La Matanza

- Coursework in programming, data structures, databases, and systems.
- Strong focus on problem-solving and software development fundamentals.
